Disclaimer

Disclaimer:

Individual results may vary. Modding blasters is a hobby of ours, and in no way do we claim to be experts on the subject. We've written this manual for other enthusiasts who want to accomplish what we have with our blasters. However, due to legal reasons, we're unable to guarantee any results and the content in this manual should not be considered professional advice.

The use of this information and recommended products should be based on your own due diligence. You agree not to hold the authors and/or distributors of this manual liable for any success or failure of your endeavors that are directly or indirectly related to the purchase and use of our information, recommended products and services.

Make sure you have good knowledge on electric circuit and modding skill. Please read below instruction carefully and reference to online video on installing instruction.

INSTALLATION STEPS

Installation Step 1:

Refer to the laser mark on the Mega Dart Fixture, make sure the arrow mark and screw tap toward the front. We recommend apply a film of lubricate on the dart fixture before installation.

Installation Step 2:

Ensure the Mega Dart Fixture insert completely into the barrel, ready for battle!

Removal Step 1:

Fasten Worker screw piston into the Mega Dart Fixture.

Removal Step 2:

Pull the Mega Dart Fixture with the string out of the blaster barrel. Due to manufacturing tolerance the dart fixture may difficult to remove as tight tolerance.
